Our days are usually filled to the max. Especially on busy days, we don't always have the opportunity to get the nourishment our body needs. Many people find themselves skipping meals, eating a fast-food meal, or perhaps making a protein shake for a breakfast pick-me-up or an afternoon perk. The problem is, many of us are consuming bad protein powder, which lack diverse amino acids, have fillers, or are just low quality in the kind of protein they have. They usually taste bad too. Our opportunity was to formulate a protein powder that was not only great for your body but tasted great too!

Introducing Amare GBX Protein™, the world's first protein powder specifically developed to support the gut-brain axis and boost the gut microbiome! The Amare Microbiome-Boosting Protein Blend features Artesa® Chickpea Protein, which gives a nice texture and flavor to the blend. The chickpea blend is formulated with premium, sustainably sourced chickpeas — so it's not only good for your gut, but for the environment too. The blend is completed with the inclusion of high quality brown rice and pea protein which help control appetite, promote cardiovascular health, and speed metabolism.*

Our GBX Protein packs a protein punch, delivering 17 grams of pure plant protein. Our unique chickpea, brown rice and pea protein blend nourishes good bacteria in the gut and improves microbiome balance, while controlling appetite and supporting muscle mass. Our specialized blend is smooth (not gritty!) and flavorful, unlike some other protein blends on the market.*

This protein-filled blend comes in two delicious flavors, chocolate and vanilla, so that you can easily add it to milk/ non-dairy milk or mix it with your favorite shake.

Plus, it's Reboot+ friendly, and works wonders to support an optimized Amare reboot! Make sure to add it to your daily diet for a great source of nutrition.*

GBX Protein™ delivers 17 grams of pure plant protein. This unique chickpea, brown rice, and pea protein blend nourishes good bacteria in the gut and improves microbiome balance, while controlling appetite and supporting muscle mass. Fully-loaded with only functional ingredients, this potent formula supports the gut microbiome, helping fuel a healthy lifestyle.*

GOOD GUT
BACTERIA*

PROVIDES
CELLULAR
ANTI-STRESS
BENEFITS*

Many of us don't get enough servings of fruits and vegetables throughout our day. The body's microbiome depends on phytonutrients from fruits and vegetables. That's why we developed GBX SuperFood™. We wanted to solve that "I didn't have time" problem we face when it comes to nourishing our bodies with the right amount of nutrition, so we packed the phytonutrient equivalent of three servings of fruits and vegetables per serving into this product.

Formulated to boost the gut microbiome and support the body's gut-brain axis, this product features two powerful proprietary blends. The Anti-Stress PhytoBiotic Proprietary Blend helps protect cells from damage by oxidative free radicals and inflammatory cytokines, helping the brain and gut run at peak efficiency. The Gut-Integrity Prebiotic Proprietary Blend provides a broad blend of prebiotic fibers to support a healthy microbiome and maintain overall gut integrity.*

If that weren't enough, GBX SuperFood is also the only phytonutrient supplement that delivers cellular anti-stress benefits that you can actually feel. It helps induce the production of natural anti-stress molecules inside our cells called Heat Shock Proteins (HSPs). This is with the help of an Enzyme-Treated Asparagus Extract (ETAS™). These HSPs help protect cells from a variety of different stressors and even help with cellular cleanup processes to keep both our brains running at peak efficiency.*

Our GBX SuperFood comes in a delicious, all-natural Sweet Apple Berry flavor. It is designed for everyday use to support a healthy lifestyle. Plus, it's Reboot+ friendly and works wonders to support an optimized Amare reboot! Make sure to add it to your daily diet for a great source of nutrition.*

REBOOT+

reset your gut-brain axis
with this 3-day system*

3-DAY
PROGRAM

NATURAL
CLEANSING*

REMOVES
WASTE &
TOXINS*

Your body processes an immense amount of information every day. Hundreds of thousands of neurotransmitters are constantly emitting millions of internal messages and signals between your gut and brain. Conversely, your brain and gut are also continually exposed to chemicals, pathogens and oxidative stress that can impact how effectively you process these internal messages. These external influencers can add a tremendous load to your gut-brain communication pathways and cause it to become sluggish.

Occasionally, it is essential to “reboot” our body – particularly our gut and endocrine organs – in order to improve the formation of neurotransmitters and the communication along the gut-brain axis.

Amare’s **Reboot+** is the first and only 3-day “scientific reboot” program designed to reset your gut-brain axis. It sets a healthy, clean foundation for your microbiome so you can obtain optimal results with the world’s first award-winning gut-brain axis nutrition system - the **Amare FundaMentals Pack**.

Reboot+ is formulated with patented and plant-based ingredients to support the natural cleansing and filtering of your colon, kidneys and liver. When combined with our recommended meal plan, your body will be rebooted and ready for optimal functionality in 3 days!*

Begin by resetting your system with **Reboot+** and follow up with the **Amare FundaMentals Pack** for exceptional overall wellness.*

A synergistic blend of natural cleansing herbs and phytonutrients to assist the body’s own detoxification process - specifically formulated to reboot your gut-brain axis in 3-days.*

- 1 Prepares the body’s gut microbiome for optimized mental wellness*
- 2 Provides a natural cleanse and supports a healthy digestive system*
- 3 Helps to remove built-up waste and toxins from the body*
- 4 Supports natural cleansing and filtering functions of the liver, kidneys, and colon*
- 5 Partners with and optimizes the body’s natural detoxification process*

WHAT IS THIS LABEL PATTERN?

INTESTINAL EPITHELIAL CELLS

Cells that combine to create a tissue layer that lines the small and large intestines of the gastrointestinal tract. Waste and toxins can build up in the digestive tract and may require a safe and natural cleanse to reboot the system.
